PROCESS 01 / 06

Full scholarship process

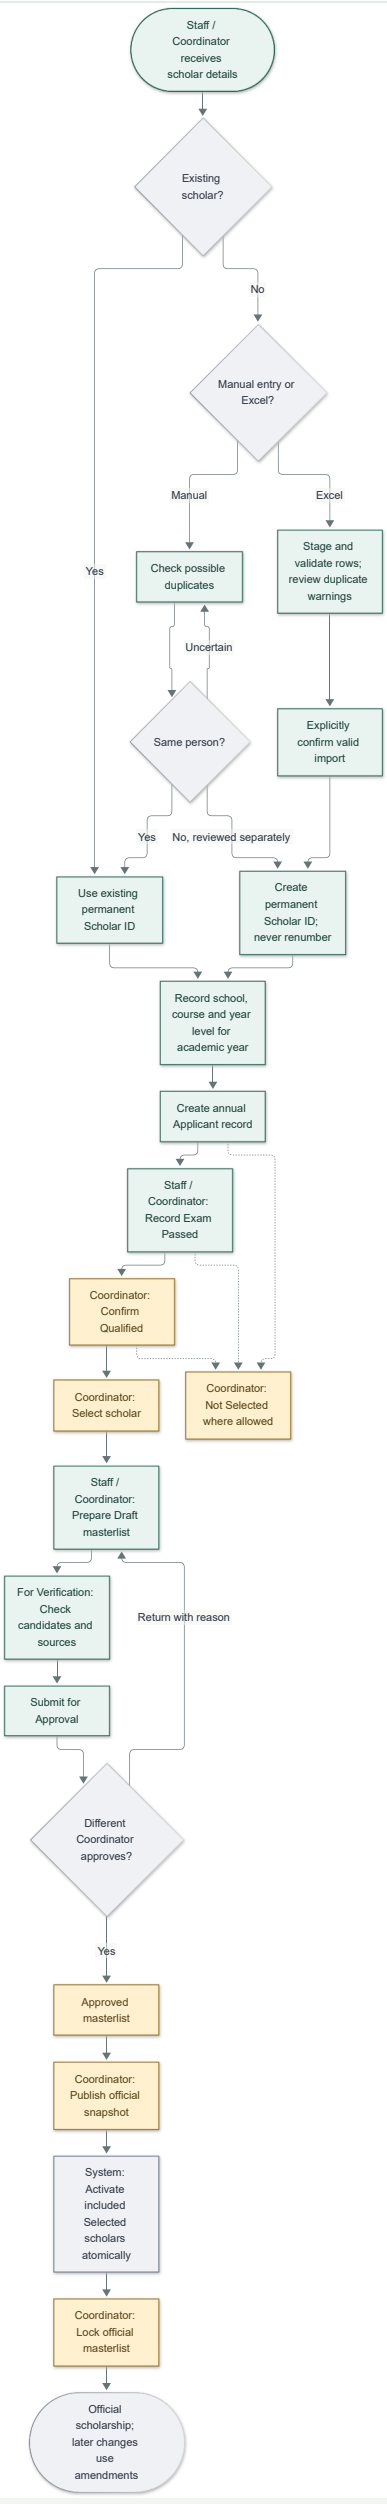

Start here. Each detailed chart below expands one part of this process.

PROCESS 02 / 06

Registration to official scholarship

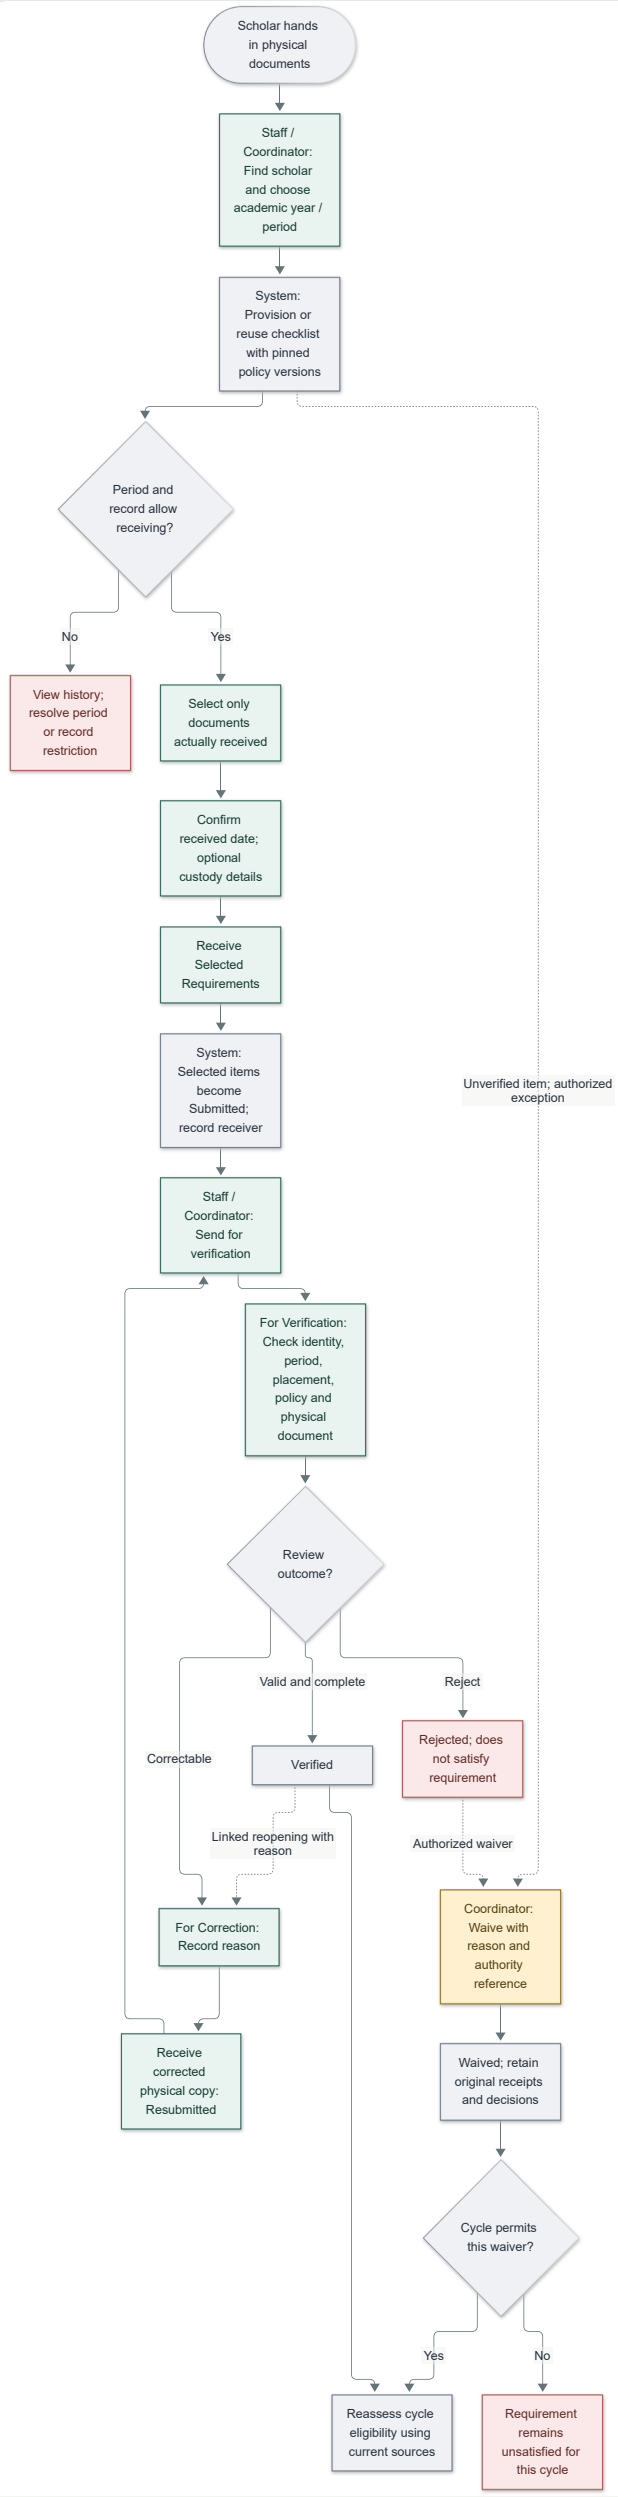

An exam pass or selection alone does not activate a scholar or make them payout eligible.

PROCESS 03 / 06

Receive, verify and correct requirements

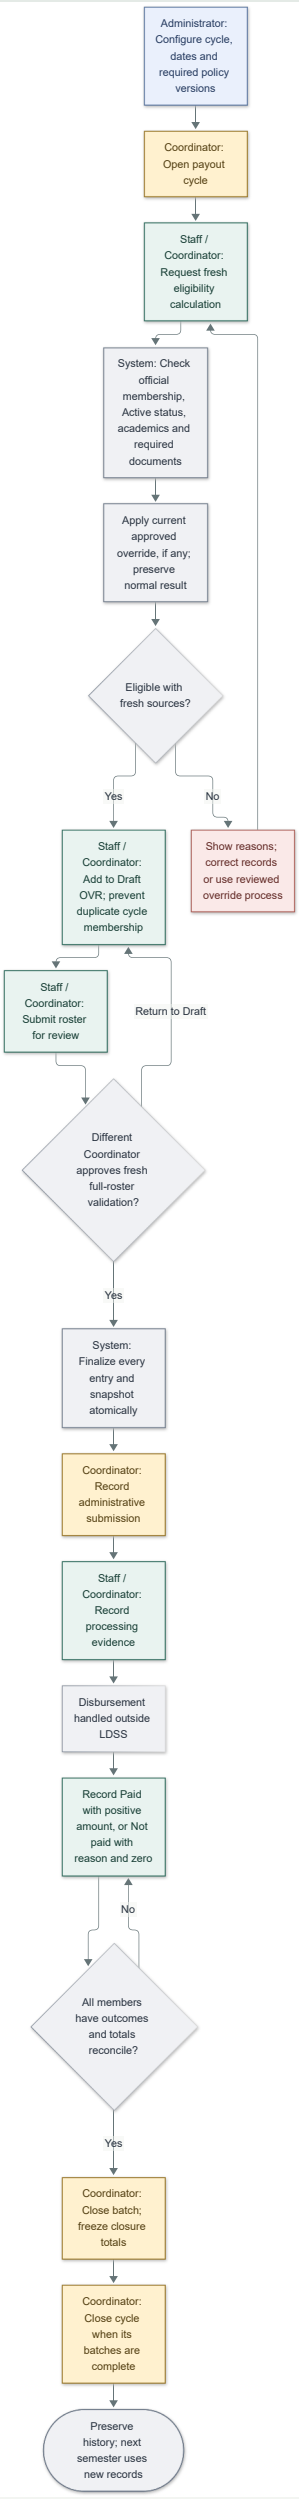

Navigate: Scholar registry > Open profile > Receive requirements. Documents remain physical; no student login or document upload.

PROCESS 04 / 06

Eligibility, OVR and payment outcomes

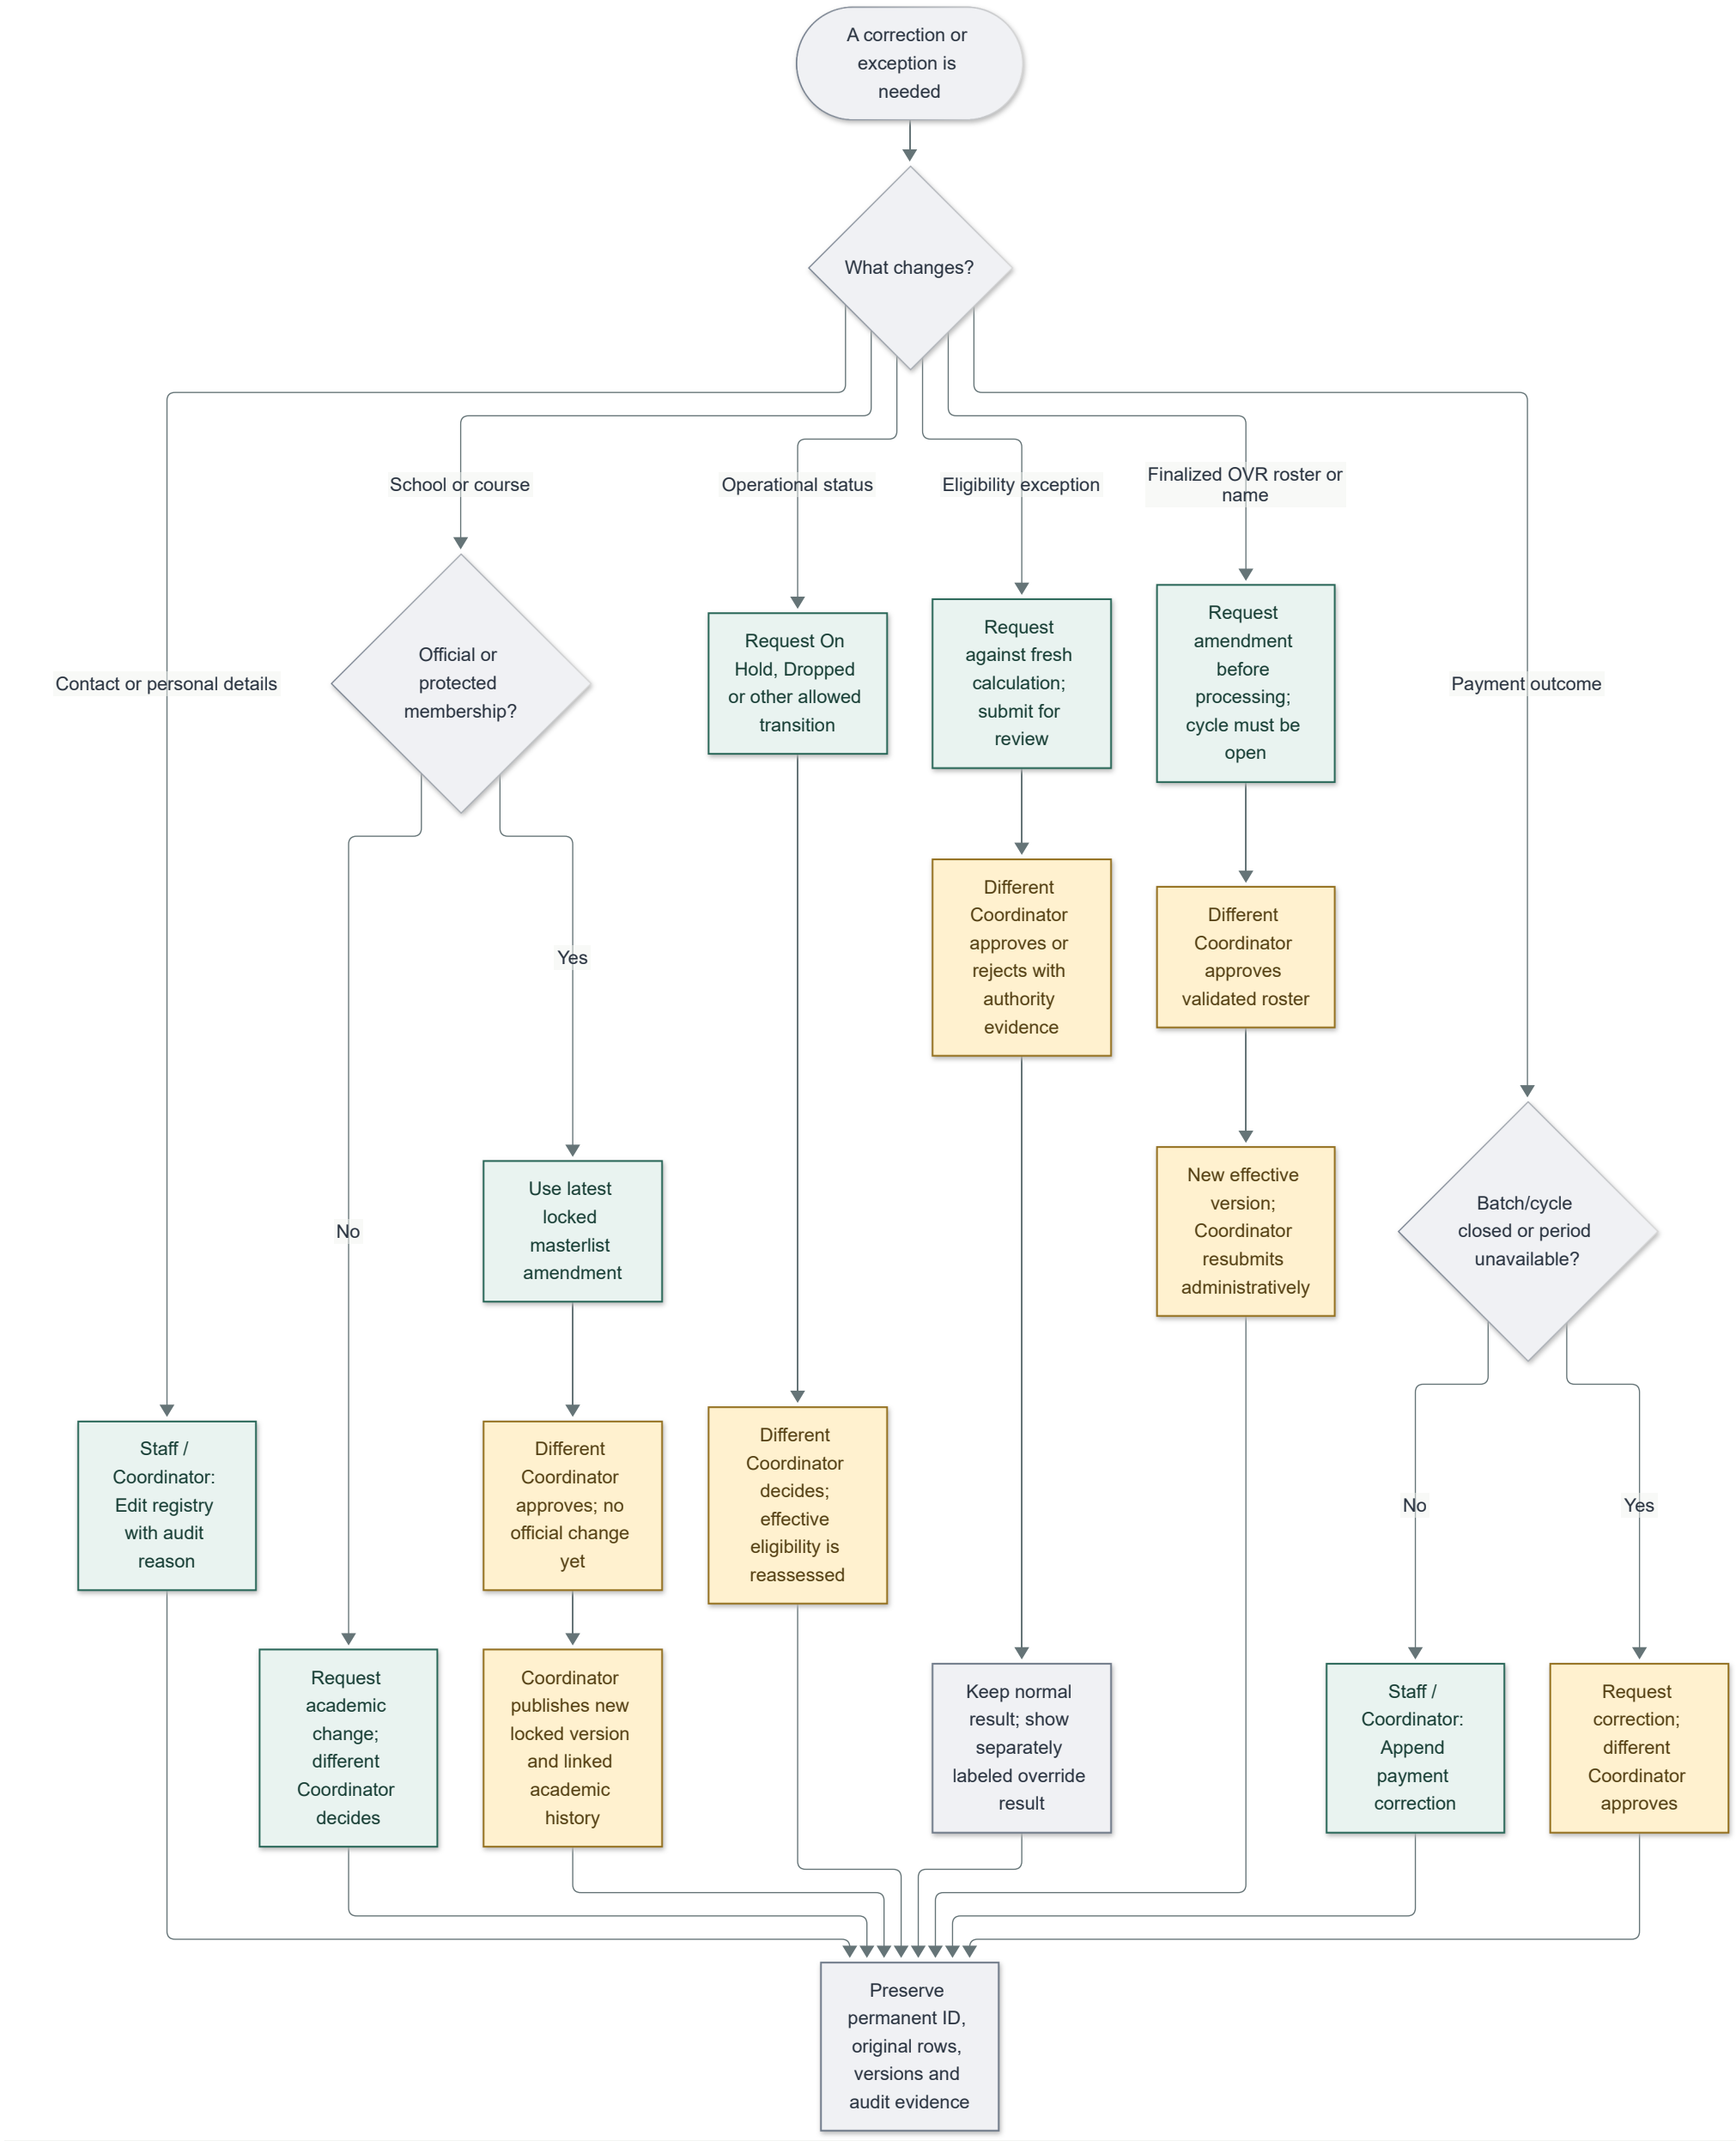

OVR is the payout batch/roster. This application records disbursement outcomes; it does not transfer money.

PROCESS 05 / 06

Corrections, amendments and exceptions

A different Coordinator means a different authenticated individual from the requester or submitter; not a second role on the same account.

PROCESS 06 / 06

Oversight, security and release

These controls apply throughout the scholarship process. F36 technical tests passed; human sign-off and production readiness remain pending.
